FEDERALS GET MORE PLAYERS

By JAMES CLARKSON.

Chicago, March 2.—The first official intimation as to the personnel of the Chicago Federal league team came today when Owner Charles Weegman told newspaper men that he was sure Tom Seaton and Ad Brennan, late of the Phillies, Claude Hendrix, erstwhile Pirate, and "Alex" Lewelling, who once toiled with the White Sox, would be aboard the Federals' special when it leaves for the training camp Sunday afternoon.

Weegman also let slip the information that George Stovall of the Kansas City club is practically sure of landing Levern, the crack southpaw of the St. Louis Browns, who now is with the Sox and Giants.

The announcement that Seaton is to hurl for the locals comes as a surprise as it is generally decided that Tom Brennan, Hendrix and Lewelling have been assigned to play on the north side all along.

The names of the remainder of the local players will be made public when Weegman returns from New York, where he will meet the returning globe-trotters.

Weegman hopes to land one or two of the tourists for the Chicago club.

Matty Signs With Giants.
Today held gloom and joy for the independent. The sob stuff came in a report from Martin Springs, Tex., that Christy Mathewson, the Giants' marvelous flinger, had signed again with the National league champs. Gilmore was counting on securing "Big Six" as Brooklyn pilot and in a last effort to wean him from Gotham had wired him an offer of \$65,000 for three years, \$15,000 of which was to be paid upon the receipt of Matty's signed contract.

Shortly after the aloom accompanying the news of Matty's loss had enveloped the Fed's offices came a telephone message from Pittsburgh to the effect that a man, fifteen times a millionaire, was anxious to back the Smoky City club and W. A. Kerr of the Pittsburgh team delivered the glad tidings to President Gilmore and further told him that the "angel" believed to be Henry C. Frick, a prominent eastern financier, was to meet Gilmore and his associates in New York Thursday and take over the club.

Gilmore declined to talk about the identity of the new backer, Frick, who is a great friend of the Wards of Brooklyn, has been reported as desirous of getting into the third circuit and apparently authoritative reports say he is the prospective proprietor of the Smoky City representatives.

Gilmore Hints at War.
Upon hearing of the reinforcement to the millionaire backers of his organization, Gilmore hinted at a possible war to the death, provided organized baseball deliberately disregards Federal league contracts and grabs men signed by the independents.

"A number of my associates are itching for a fight with the big leagues," said Gilmore, "and if organized ball doesn't let our men alone it will find itself up against the toughest opposition it ever faced. We've got the money to get the players and we're determined to get them by fair means, but if we are forced into a fight, we'll certainly give a good account of ourselves."

"Does that mean that you will go after men now under contract to big league teams?" Gilmore was asked. "Certainly does," replied the independent leader, "and we will grab their men so fast it'll make their heads swim."

The Feds now are to make an effort to secure Fielder Jones, former White Sox manager, to lead the Brooklyn team, Gilmore indicated today. Gilmore even intimated that Jones would have no trouble buying stock in the club if he so desired, but

FIRES FOUR SHOTS AT HER HUSBAND

By JAMES CLARKSON.

Salt Lake, March 3.—Mrs. John J. Byrne of 153 West Fifth South street expressed no sorrow when arrested at 1:45 o'clock this morning, shortly after she had fired four shots at her husband, one of which took effect in his left thigh.

To the police, Mrs. Byrne said that the shooting had been provoked by her husband's boasts of his flirtations with other women. Byrne had undressed and laid down on the bed. Becoming suspicious of her actions, he arose when she drew a revolver and began firing. Four shots flashed from the small, cheap revolver, and the hammer descended on a fifth cartridge that failed to explode before the husband succeeded in getting hold of the gun.

Mrs. Byrne admitted last night to the police that she bought the gun yesterday for the purpose of shooting her husband. At the time of the shooting, Claude Oaks, 14 years of age, son of Mrs. Byrne, was asleep in another room. Thinking that his mother was in peril he caught up a .22-caliber rifle from the corner of his room and went into the room. Neighbors summoned the police. Chauffeur George Moore and Motorcycle Patrolman W. H. Hendrickson responded. The pair were taken to headquarters and the bullet part of Byrne's thigh by D. R. W. Ashley. Both the husband and wife were held at the jail for the night.

Byrne, who is a bartender at the Social bar, Fifth South and State streets, said last night that he believed his wife's mind was affected. "It was the first time I ever was shot at and the flashes of that gun sure looked unhealthy," said Byrne. The pair were married in Salt Lake last August, according to the husband.

LOCAL BRIEFS

Postoffice Supplies.—Postmaster W. W. Browning has announced that he will receive bids for electric current, water, ice, for removing ashes and rubbish and for the washing of towels until March 25. He will also receive sealed bids for 200 tons of bituminous coal on April 20, for use next winter.

Blind Go to Zion.—About sixty blind students of the State School for the Deaf and Blind will leave on the 7 o'clock Bamberger train tonight for Salt Lake City, where they will attend the recital to be given there by Helen Keller. The transportation to Salt Lake and admission to Miss Keller's recital will be given to the children free and they are anticipating a rare treat.

"Analysis of our edible weeds shows that they possess powerful medicinal qualities. The dandelion, for example, is replete with tonic salts and is aperient, besides being a natural liver medicine; the milkweed is a perfect tonic for the kidneys and a general cleanser of the system; the common yarrow is a good spring tonic for children; while red clover is one of the richest of all nitrogenous plants, and nitrogen is one of the most strengthening elements."—Farm and Fireside.

RITCHIE TRAINS FOR AD WOLGAST

By SAM P. HALL.

Chicago, Ill., March 2.—William Ritchie, already in pretty fine condition, started his Chicago training work at the O'Connell gymnasium today. The lightweight champion looked great, and had Ad Wolgast been there instead of over at the Lewis place his face probably would have lost the sneer which came over it when the name of Ritchie was mentioned. No matter what the outcome on March 12, Wolgast never will forgive the Californian for taking his title away on a foul, according to the decision of Referee Griffin.

Plenty of folks were present to run their gleaming eyeballs over the performance of the champion at the State street schools of arms. All went away with the impression that if Wolgast wins back the championship in Milwaukee he'll have to be as good if not better than he ever was during his strenuous ring career.

Wise ring birds who saw Ritchie spar two rounds with Willie Schaefer and two with Eddie Tancel batted their eyes when informed after the exhibition that the champion had not had boxing gloves on his hands since the ninth of last November. Just before his match with T. Murphy was called off.

"In that case he's surely a wonder," remarked one of the boxing sharps. "Packey McFarland is the only fellow around here who can handle Schaefer that way and then only after several days of boxing. Here is Ritchie boxing rings around Willie without having stuck up his hands in several months. He's a champion all right."

Ritchie is ever so much better than when boxing around here three years ago. Those days he had a left lead with which he used to fan the faces of opponents. There was little steam behind it. He hangs that left home now, as Schaefer will tell you. What is more, he can hook with it beautifully and either to the head or to the body. The body hook is just as hard a blow as the one to the head. Willie will have Ad carrying his right arm low if he gets home a few of those body hooks. The old right cross is still working as prettily as ever.

UNEMPLOYED IN THE CHURCHES

New York, March 2.—"Tannenbaum's brigade," as the band of homeless, unemployed men who have sought food and shelter from the elements for the past four days, by spectacular raids upon churches, is termed, scored a bloodless conquest of St. Mark's church at Tenth street and Second avenue tonight.

After a brief skirmish with the police and a couple of anarchists who sought to take command of the expedition, Frank Tannenbaum, the curly-haired, dark-eyed young W. W. organizer, led 200 of his cohorts from Rutgers square up the Bowery to St. Mark's.

They were welcomed in the name of "social fellowship" by the assistant rector, Dr. William Miller Gamble, himself a Socialist. Mr. and Mrs. Frank Fite and other men and women members of the church, and ushered into the lecture room at the parish house.

A roaring open fire gave a home-like touch to the room, and the men were served with hot coffee and sandwiches, and after a welcome session of speech-making, were housed for the night.

"We have a right to every loaf of bread in this city when we are hungry, and we are prepared to assert this right," said young Tannenbaum, in a passionate speech at St. Mark's. "A hungry man has no idea of property rights."

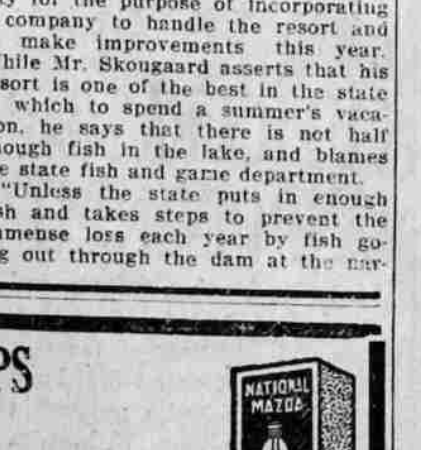

"We shall not accept charity. The municipal lodging house is in a filthy condition. Let Commissioners of Charities Kingsbury sleep there; we won't. We are going to boycott the bread line, the lodging houses and the missions. We are going into restaurants, bakeries and food stores to secure what we need."

"We are willing to work, but we will not scab. We shall not work more than eight hours a day nor for less than \$3 a day."

WILD CAT FERNS BEATEN

Cincinnati, Ohio, March 2.—Eddie Meizer of this city and a slight shade on a "Wild Cat" Ferns of Kansas City in a ten-round bout here tonight. The bout was a classy one and Meizer won by a very narrow margin.

HUSBAND AND WIFE KEEP TRACK OF ONE ANOTHER BY WIRELESS

Mr. and Mrs. Irving Vermilyea, the two young subjects of the accompanying photograph, residents of Mt. Vernon, N. Y., are probably the only couple who converse with one another via the wireless telephone. Mr. Vermilyea is the inventor of a new wireless talking apparatus, by means of which he claims he can hold conversation with anyone within a radius of twenty-five miles.

LANDSLIDE IS DISASTROUS

Bingham, March 2.—A landslide occurred here about 3 o'clock this afternoon, which damaged six dwellings to a loss of about \$4000 and more or less injured six persons.

The most severely hurt is Mrs. Joseph Mace, an aged woman, whose left leg was broken and whose body was badly bruised. Her son, Joseph Mace, was also severely bruised about the body, but no bones were broken. His wife sustained severe hurts about the face and arms.

A peculiar thing about the accident in the Mace home, is that three of their children, 1, 3 and 5 years of age, were completely buried beneath debris, but escaped with minor bruises. The baby, who was in the bed at the time and was completely covered up by wreckage, yet it escaped without a scratch.

The other homes damaged were those of the families of C. J. Stillman, 1, Dorroughy and H. A. Keeler and the boarding house of Lottie Moore. One of the houses, all of which were of frame construction, was shifted a couple of rods away from its foundation. The buildings belonged to A. J. Chandler.

It is supposed that leakage from a city water tank, located on the point of the mountain opposite the Utah Copper machine shop, dislodged a mass of earth and stone and snow, causing it to slip about 250 feet down mountainside. The avalanche struck the six houses and almost demolished two of them. The others were less badly smashed.

WEBER CLUB AIDS TABERNACLE CHOIR

The Weber club decided yesterday to send J. David Larson with Manager Charles J. Ross of the Ogden Tabernacle choir, to the Pacific coast to arrange for the reception of the choir on its trip and for the recitals which will be given.

The two men will arrange for recitals at San Francisco, Berkeley, Oakland, Los Angeles, San Diego and several other coast cities. They will leave for the coast tomorrow or Thursday.

The choir is working hard in preparing choruses for the trip and the Weber club is backing up the officers in the financial end of the undertaking, believing that the appearance of the choir at the San Francisco and San Diego fairs will be of great benefit to Ogden and Utah.

MINER FALLS; IS CRUSHED BY CAGE

Mammoth, March 2.—Edward Evans, aged 56, who for the past twelve years has been employed in the mines of Mammoth camp, was instantly killed at 2:30 this morning, when he was crushed between the cage and side wall just above the 400-foot level in the Grand Central mine.

The shift left the 400 and started the ascent, but the cage had mounted but a few feet when Evans fainted and fell between the cage and the wall, his body being crushed to a pulp before the cage could be stopped. Evans had made no complaint of illness and the cause of his sudden fainting remains a mystery.

Mr. Evans was a widower with three children, ranging in age from 16 to 20 years. He was a member of Eureka camp, Woodmen of the World, in which lodge he carried a small amount of insurance. Funeral services will be held Wednesday afternoon at 1:30 from the Eureka opera house. Interment in the Eureka cemetery.

SICK MAN WANDERS

Bingham, March 2.—Ed Farthing, a teamster, in the employ of R. E. Goodell, has been suffering from pneumonia for several days. Last night he became violent in his fevered delirium and rushed out of the house and down the street. He was taken to the hospital this afternoon after apprehension by a deputy sheriff.

CONTRIVERSY OVER FISH-LAKE SCREENS

Salt Lake, March 3.—The state fish and game department is used of failing to properly screen the outlet to Fish lake and of taking more fish out of the lake than is put in each year by Charles Skougard, owner of the Fish Lake resort, who is in the city for the purpose of incorporating a company to handle the resort and to make improvements this year. While Mr. Skougard asserts that his resort is one of the best in the state at which to spend a summer's vacation, he says that there is not half enough fish in the lake, and blames the state fish and game department.

"Unless the state puts in enough fish and takes steps to prevent the immense loss each year by fish going out through the dam at the nar-

Made-to-Measure Suits

For

LADIES and GENTLEMEN

Let your spring suit be a **MADE-TO-MEASURE**. Why not have a perfect fit for the same price you pay for a ready-made suit. It stands to reason, we can fit you better, because we measure your physique accurately, even down to an eighth of an inch. And our prices on our large assortment of pretty patterns in spring fashions are lower than elsewhere.

WE HANDLE THE
CELEBRATED LINE OF
PROVO WOOLENS.

Come and let us show you—pay us a visit, we do not ask you to buy.

We make a specialty on all kinds of uniforms—let us show you our samples.

HOME WORK CREDITS

IN GRANITE SCHOOLS

Salt Lake, March 3.—The Granite school district has adopted a plan which gives the school children credit for home work. A certain per cent is given for each minute of home work, according to the kind of work done. Some of the credits are based upon the following work: Rising before 7 o'clock in the morning, retiring at a reasonable hour, according to the grade, building fires, preparing fuel, helping to wash, helping prepare another for school, brushing teeth, washing or drying dishes, setting or clearing the table, cooking, chores and other forms of home work.

The six students having the largest percentage of work have their names published and the time which they are engaged. This encourages the children to such an extent that they are busily employed in order to get more time and credits. All the schools in the district have made favorable reports to Superintendent Skidmore of the district.

Truancy of the pupil deprives him of all home credits and sickness is the only excuse which is accepted. Twenty per cent is deducted for each time tardy, 20 per cent for being untidy and 20 per cent for lack of good deportment. All work must be done with a good will and cheerfully. A third grade pupil of the Roosevelt school has a record of 615 minutes for the week of February 22 to March 2.

Getting the Best of the Grouch.
Herbert Casson says "The way to get the better of a grouch is to let him talk himself out." Try it, I have and it works—Exchange.

All Depends.
"How are we fixed for war?" "Well, in the newspapers we look pretty good, but in the magazines we look rather bad."

DR. WIDTSOE AND DR. HARRIS ENTHUSIASTIC OVER TRIP

Logan, March 2.—President Widtsoe and Dr. F. S. Harris of the Agricultural college have returned from a two weeks' trip through the southern part of the state where they took part in the Richfield and Cedar City roundups and transacted other college business. Among other things they in company with members of the board of trustees, the state conservation commission and representa-

tives of the Salt Lake Route, decided upon the location of two experiment farms at Cedar City to be used in connection with the Branch Agricultural college at that place.

Conditions for good crops in Dixie during the coming season, Professor Harris reports, are very favorable, both as to irrigation and dry farming. There is an abundance of snow in the mountains and the farms are well soaked up.

A GOOD BANK ACCOUNT

does not necessarily consist of a large amount of money. Regular deposits, daily for commercial accounts and weekly or monthly for individuals, with careful attention to the balance in account and an avoidance of overdrafts, is what makes the Banker smile—and your credit good.
